Changes to Camp Dining Hall

In line with our focus on Personal Hygiene and the safety our people at Red Chris, Sodexo and the Site Services teams have made a number of significant improvements to our dining hall. The following changes have been made:

- **Bag Table** - **NO** backpacks, lunch boxes or other baggage is allowed into the dining hall
- **Barricading** – delineation of the entrance and exit to the dining hall
- **Hand washing station** – **EVERYONE MUST** wash their hands before entering the meals area. 20 seconds of washing is recommended.
- **Hand sanitizer dispensers** – installed in across from the Sodexo office and at the entrance to the dining hall
- **Sandwich refrigerators** – have been moved to the west wall of the dining hall to provide ease of access to the hand washing station
- **Washrooms are closed** – washrooms in the dining hall are now closed
- **Salad bar server** – Sodexo are providing an employee to serve at the salad bar
- **Pre-packaging** – Sodexo are providing pre-packaged vegetable and fruit options for lunches

Please thank Sodexo and the Site Services team for this great work. Additional changes are to come which will enhance the focus on our safety.
