Currently hospitalized	30	30	0
Total deaths in BC	6	6	0
Total recovered in BC	274	275	1
Total confirmed cases in BC	42	42	0

LATEST ADVICE AND MEASURES IN BRITISH COLUMBIA

- Today, Dr. Bonnie Henry released a statement regarding the management and containment of COVID-19 in the Province.⁵ She stated:
 - “Public alerts and the temporary closure of businesses are some of the ways public health teams are working to effectively manage COVID-19 in our communities.”
 - “Contact tracing to contain the spread of COVID-19 requires all of our involvement to be successful.”
 - “What each of us can do to support contact tracing activities is to complete our own personal risk assessment when deciding where to go and who to see.”
 - “Fewer faces, bigger spaces is the safest approach, because we know crowded, closed spaces where people may be in close contact with each other are higher-risk environments for all of us and need to be avoided at this time.”
 - “As we have seen in many other locations around the world, one slip can quickly cause a surge in new cases. We have also seen here in B.C. that our foundational rules for safe social interactions help to protect all of us.”

LATEST ADVICE AND MEASURES IN YUKON TERRITORY

- Today, the Yukon Government has released the following updates on measures being taken in response to the COVID-19 pandemic.⁶ Of note:
 - The stand-alone respiratory assessment centre has reopened in Whitehorse in anticipation of an increased need for COVID-19 testing as a result of the reopening of Yukon’s borders and in preparation for influenza season.
 - All admitted patients at Whitehorse General Hospital are allowed one designated, and consistent, visitor.
