SIGNIFICANT UPDATES IN BRITISH COLUMBIA

- Today, Dr. Bonnie Henry, B.C.'s provincial health officer, and Adrian Dix, B.C.'s Minister of Health, provided a statement regarding the COVID-19 pandemic in B.C. Highlights include the following:⁶
 - “Our clinics are ramped up and we have ample vaccine supply. Now, it is your turn to step forward and get protected with your COVID-19 vaccine.”
 - “We are calling on every adult in our province to join our efforts and register for your vaccine today. Last week, almost 400,000 people registered for their vaccine. We can break that record this week.”
 - “The number of people protected with a COVID-19 vaccine is going up every day, and the number of people requiring care in hospital is trending down. This is what we want to see and what we want to keep going.”
 - “Like it has been since the start of the pandemic, small efforts make a big difference: taking two minutes to register, getting vaccinated when it is your turn, staying small and staying local. Together, we’ll get through this storm.”
- Today, the Government of B.C. announced amendments to the Employment Standards Act, which bring in three days of paid sick leave related to COVID-19 for workers and will remain in place until December 31, 2021.⁷
 - Workers will be able to take three days of paid sick leave related to COVID-19, such as having symptoms, self-isolating, and waiting for a test result.
 - The short-term paid sick leave related to COVID-19 will bridge the gap for workers between when they first feel sick and when they can access the federal Canada Recovery Sickness Benefit.
 - Employers will be required to pay workers their full wages.
 - The Province will reimburse employers that do not have an existing sick leave program up to \$200 per day for each worker to cover costs.
 - Beginning in June, WorkSafeBC will set up and administer the employer reimbursement program on behalf of the Province.
 - “This is good for workers, good for businesses, and good for the economy. It will help avoid workplace transmission and put the pandemic behind us,” said Harry Bains, Minister of Labour.
 - An estimated 50% of B.C. employees do not currently have access to paid sick leave. This means upwards of one million workers in B.C. will benefit from receiving these new paid sick leaves.
 - More details for workers and employers can be found at:
<https://www2.gov.bc.ca/gov/content/covid-19/info/paid-sick-leave>

⁷ <https://news.gov.bc.ca/releases/2021PREM0033-000887>

- Today, the B.C. Government announced the extension of the provincial state of emergency through the end of the day on May 25, 2021.⁸
 - This measure allows health and emergency management officials to continue to use extraordinary powers under the Emergency Program Act (EPA) to support the Province's COVID-19 pandemic response.
 - Under the EPA, the province continues to use the support of police and other enforcement officials to issue tickets for owners, operators, and event organizers who host an event or gathering contravening the Provincial Health Officer's orders.

SIGNIFICANT UPDATES IN THE YUKON TERRITORY

- Today, Dr. Brendan Hanley, Yukon's Chief Medical Officer of Health, confirmed two new cases of COVID-19, bringing the territory's total to 84 cases. There is currently one active case in Yukon.⁹
 - Case 83 is an adult in Whitehorse and is related to international travel.
 - There were no public exposures, and the individual is isolating in a safe and effective manner.
 - Case 84 is a Yukon resident who acquired the infection out of the territory, was tested out of the territory, and will remain out of Yukon until they are non-infectious.
 - This person is included in the Yukon count, but does not increase the number of active cases in the territory.

SIGNIFICANT UPDATES FROM THE GOVERNMENT OF CANADA

- There are no significant updates from the Government of Canada today.

This summary was compiled by [CCEM Strategies Ltd.](#) at the request of the 3 Nations Society.
