

3 NATIONS COVID-19 UPDATE – 25 June 2021

The information contained in this report is based on recent updates and current information available at the time the report was finalized. It is not inclusive of all actions or measures taken to date by health officials federally, provincially, or locally.

COVID-19 CASE COUNTS

STATUS OF CASES IN BC¹	As of Jun 24	As of Jun 25	Change
Total confirmed cases in BC	147,346	147,418	72
Total active cases in BC	1,111	1,096	-15
Currently in intensive care	34	37	3
Currently hospitalized	113	108	-5
Total hospitalized to date	7,928	7,934	6
Total deaths in BC	1,747	1,749	2
Total recovered in BC	144,466	144,554	88

CONFIRMED CASES BY REGION¹	As of Jun 24	As of Jun 25	Change
Total confirmed cases in BC	147,346	147,418	72
Vancouver Coastal Health	35,403	35,427	24
Fraser Health	85,684	85,713	29
Island Health	5,157	5,161	4
Interior Health	13,099	13,112	13
Northern Health	7,798	7,800	2
Out of Canada	205	205	0
Total tests	2,897,119	2,903,876	6,757*

STATUS OF CASES IN YUKON²	As of Jun 23	As of Jun 25	Change
Total confirmed cases	242	264	22
Total active cases	107	108**	1
Total deaths	4	4	0
Total recovered	135	152	17
Total individuals tested	9,154	9,254	100
Negative results	8,780	8,915	135
Pending results	149	91	-58

*The BCCDC has reported 6,424 new tests, but this does not align with the difference in total test numbers between June 24th and June 25th.

** The Yukon Government is reporting a total of 111 active cases, 108 of which are confirmed Yukon residents.

SIGNIFICANT UPDATES IN BRITISH COLUMBIA

- Today, Dr. Bonnie Henry, B.C.'s provincial health officer, and Adrian Dix, Minister of Health, provided a joint statement regarding updates on the COVID-19 response in B.C.⁶ Highlights include:
 - “This weekend, with the anticipated extreme hot weather throughout the province, we remind everyone in British Columbia to stay cool and hydrated – whether you will be going to a vaccine clinic or spending time with friends and family outside.”
 - “Our mass clinics are indoors, and many pop-up clinics have moved to cooler, indoor locations. If you have a vaccine appointment at a pop-up clinic or are planning to drop in, check the location before you go, wear a hat and sunscreen, and bring water.”
 - “Just as we have taken care of our neighbours, seniors and Elders during the COVID-19 pandemic, they may also need some assistance this weekend. Let’s continue to support each other with kindness and compassion, and help our friends and family get their vaccines safely.”

SIGNIFICANT UPDATES IN THE YUKON TERRITORY

- Today, Dr. Brendan Hanley, Yukon’s Chief Medical Officer of Health, advised of a ‘social firebreak’ with informal gatherings of no more than six as case counts continue to rise:⁷
 - “It is time to take a pause and slow down on social gatherings. For now, I would like all Yukoners to limit informal gatherings to a small number, regardless of vaccination status.”
 - “We expect to see high daily numbers of case for a while yet. This outbreak is mostly affecting unvaccinated adults, children, and youth, but even vaccinated people are at some risk. There is a high risk for spread of COVID-19 in any social gathering, and great care must be taken. Any organized gathering such as a wedding or funeral must adhere to current guidelines. Unorganized social gatherings should for now be limited to no more than six adults. Limiting our contacts for the next two weeks will help us take a pause and assess where we are. Our public health system is significantly challenged right now and this measure will allow us to address where we are seeing our greatest risk.”

SIGNIFICANT UPDATES FROM THE GOVERNMENT OF CANADA

- Today, the Public Health Agency of Canada (PHAC) released updated guidance for Canadians based on their COVID-19 vaccination status, including a new colour-coded [infographic](#)⁸ to easily identify what is safe, and what is not, based on level of vaccination.
 - Individuals who are vaccinated still need to follow local public health advice in public settings (e.g. workplaces, public transit).
 - **Fully Vaccinated (2 doses received)**
 - No mask or physical distancing is necessary when:
 - Outdoors or indoors with a small group of other fully vaccinated individuals
 - Outdoors with anyone who is not fully vaccinated
 - Consider wearing a mask and physically distancing when indoors with people from multiple households who may be unvaccinated or partially vaccinated. Always

follow the measures put in place by the homeowner or event organizer. This includes private celebrations and at fitness facilities

- **Unvaccinated or Partially Vaccinated (1 dose received)**

- No mask or physical distancing is necessary when outdoors with a small group of other fully vaccinated individuals, if everyone is comfortable. This includes small family gatherings and sharing hugs
- Consider removing your mask and being physically close to fully vaccinated individuals when with a small group indoors if everyone is comfortable, AND nobody is at risk of more severe disease or outcomes.
- Consider wearing a mask if physical distancing cannot be maintained when outdoors with people from multiple households who may be unvaccinated or partially vaccinated.
- Wear a mask and maintain physical distancing when in a large gathering either indoors or outdoors, and when indoors with people from multiple households who may be unvaccinated or partially vaccinated.
