SIGNIFICANT UPDATES IN BRITISH COLUMBIA

- Today, the Government of British Columbia declared a provincial state of emergency due to the recent flooding and landslides in the province.⁷ Details include the following:
 - “The declaration will take effect immediately.”
 - “The state of emergency is initially in effect for 14 days and may be extended or rescinded as necessary.”
 - ““This provincewide declaration will help us with the challenges ahead as we recover from the utter devastation that’s been caused by this natural disaster. Getting our rail and roadways back up and in operation is a top priority, and the declaration will enable us to put the resources in place to make that happen.”” – Mike Farnworth, Minister of Public Safety and Solicitor General
 - ““Our focus is on clearing, repairing and reopening roads to connect the Interior and the North to the Lower Mainland and Vancouver Island, to get our supply chains moving. We are working closely with multiple partners to make this happen. It is a big job, but collectively we are up to the challenge and will get things opened up again just as soon as we possibly can.”” – Rob Fleming, Minister of Transportation and Infrastructure
 - “The state of emergency applies to the whole province and ensures federal, provincial and local resources can be delivered in a co-ordinated response to protect the public, which remains the provincial government's top priority.”
 - “The federal government has responded to and accepted British Columbia’s requests for assistance. In the coming days, additional federal personnel and resources will be arriving in B.C. to assist.”
 - “The state of emergency gives agencies, such as the Ministry of Transportation and Infrastructure, Emergency Management BC, the RCMP and others the ability to use extraordinary measures to protect people and communities.”

SIGNIFICANT UPDATES IN THE YUKON TERRITORY

- No significant updates from the Government of Yukon.

Note: COVID-19 public exposure notices can be found at the following locations:
